A petition was presented to the House, upon which Mr. Rhodes remarked that this petition tion it was returned.

That foreigners residing in this country do not sell lands they may possess to other foreigners, but only to native Hawaiians, or to the Government. Referred to Committee on Judiciary. REPORT OF COMMITTEES.

Mr. Gibson, Chairman of the Finance Committee, said the printing of the report had beed rapidly pushed forward, and would probably b ready to-morrow or the next day.

The Finance Committee had had under their consideration the Ladies Benevolent Society, and a petition that had been presented by Chinese, and they thought that a portion of the hospital fees might be reserved for the Benevolent Society.

The committee would suggest that \$5,000 be set apart for that purpose and placed at the dis-posal of the Minister of the Interior. With reference to the prayer of Chinese, that one dollar a head be imposed on Chinese for hospital aid, the committee are of opinion that this would be a measure of peculiar class legislation which the its subscribers numbered 225 persons. Their mittee think that a quarter of this sum might be moved that the petition be referred to a Select to pay the tax for. He (Mr. Gibson) would | Messrs. Rhodes, Dowsett, Kahulu and Nawahi. therefore move that this report be laid on the table and taken up with the Appropriation Bill. This woold give \$16,000 for Hawaiians and Judiciary. \$5,000 for strangers. On motion this bill was read by its title. It had been printed and circulated among the members. The principal features of the bill were the substitution of the words " any spirituous liquor of 19 ° of alcoholic strength," and also the increase of the license tax. Instead of \$500 being paid by the wholesale dealer, he shall pay \$1,000, and the retail license be increased from \$1,000 to \$3,000 per annum. The motion to indefinitely postpone was lost, and a motion to refer to a Special Committee was carried. The following gentlemen were appointed: Hons. Kalua, Baker, Kaulukou, Aholo and Cleghorn.

Mr. Glendon asked for an extension of time to report on the Reformatory School and Insane Asylum, which was granted. A full was read for the first time relating to

the slaughter and sale of beef. At 4 P. M. the House adjourned until 1 P. M.

of the Interior how much each lamp cost. His Ex. the Minister of Interior said that heretofore the streets had been lighted under the Attorney General's department. A law was passed last Session authorizing the Minister of Interior to light the city with gas. The department then had 38 lamps, and he had contracted for 50 additional, making 88 lamps, the number they have at present. The cost of each light was \$3.85 per month, about the same as kerosene cost and a much better light was obtained. An appropriation for that amount will be asked. Nothing has yet been paid. The contract was that nothing should be paid until the Appropria-

tion Bill is passed. ORDER OF THE DAY.

The circumstances of His Majesty's subjects is not the same as in the reign of Kamehameha IV. They are not so numerous, and now it is the foreigners we must have regard for as well as the natives. If \$16,000 were asked to be added to the \$85,000 for lepers, I would say yes, and we should have the support of the entire community, foreigners as well as natives. Lands were. Governor Bush said, that he thought the Honorable member from North Kona was intrenching upon the prerogative of the King. He deemed that the information asked for could only be ob-

tained by consent of His Majesty. His Ex. Minister of Finance spoke at length. He explained the absolute power of His Majesty, and quoting from Article 34 of the Constitution. said the King might sell the country if he so

Mr. Rhodes said the words used by the Minister of Finance should not pass without a protest from at least one in this Assembly. He argued that His Majesty had but a life interest in the country, and it was not his to sell. When the King came to the throne he named his successor, and that successor has a right to the throne. His Majesty cannot sell his people. He quoted from Article 38 of the Constitution wherein it is stated that the national ensign shall not be changed. The hearts of those who have wasted the midzle, will be made glad by reading and pondering over the following lucid explanation regarding the mysterious trio. The numbers 13 14 15 are capable of six dif-

ferent combinations, as follows: 13 14 15 13 15 14 14 13 15 I4 15 13 15 13 14 15 14 13

These combinations fall into two groups, as Group A 13 14 15 Group B 13 15 14

14 15 13

15 13 14

The combinations in group A are capable of solution, or as one of them is the solution, the last two are soluble. The combinations in group B are incapable of solution. Any one in group A can be changed to any other one in the same group. Any sue in the group B can be changed to any other one in the same group. But no combination in group A can be changed to any combination in group B, and vice versa. Since this is so, there are but two soluble combinations out of the five irregular combinations, viz: 14 15 13, and 15 13 14. The following rule has been deduced from these facts : subtract the last number of the combination from the first number, and if the difference be one, the combination is soluble; if the difference be two, it is insoluble; if there can be no subtraction, it is insoluble. The following fact is also worth noting: place the three figures in any then constantly transfer the first figure to the third place, and if in such transpositions the numbers do not fall into regular order, the combination with which you started is insoluble The following is the key to the soluble combina-
